Punta multitaglio con inserti intercambiabili in PCD, ideale per lavorazioni di foratura, scanalatura e contornatura di ogni tipo di pannello (truciolare, MDF, massello, HPL) rivestito in melaminico e impiallacciato.

L'elevato numero di taglienti favorisce lo scarico del truciolo e un'ottima finitura, con la possibilità di sostituire taglienti danneggiati direttamente in macchina.

Multi-cutting bit with interchangeable PCD inserts, ideal for drilling, grooving, and contouring all types of melamine and veneered panels (chipboard, MDF, solid wood, HPL).

The high number of cutting edges facilitates chip removal and an excellent finish, with the option of changing cutting edges directly on the machine
